THIS IS AN INKJET PRINTER.

A very different kind of inkjet printer.
It helps you save up to 50% on the cost of ink in the future.¹ And it helps you use up to 30% less ink with the all new Eco Button.³ It comes with XL (high capacity) cartridges (black and color) in the box. This is equivalent to 4 standard cartridges of ink.² It scans straight to your smartphone. And lets you print photos or an address wirelessly with just a flick.

Say hello to the all-new KODAK VERITÉ 55 XL Plus Printer.

- ink page yield values for color graphics and test document obtained by continuous printing in accordance with ISO/IEC 24711. Actual results may vary.

1. Up to 50% savings claim is based on the cost per page (“CPP”) of replacement KODAK VERITÉ™ ink cartridges. As compared to the CPP of similarly priced brand-name standard capacity cartridges for leading manufacturers’ color inkjet printers less than $100 USD, market share reported by NPD 2015. CPP savings are up to 25% or more when comparing KODAK VERITÉ™ standard-capacity cartridges to leading-manufacturer standard-capacity inkjet cartridges. CPP is based on manufacturers’ recommended street price and manufacturer’s advertised page yield. Actual savings may vary depending on number of pages actually printed per month and content of pages printed. Actual savings may vary depending on number of pages actually printed per month and content of pages printed. Up to 2x the normal yield of a standard capacity KODAK VERITÉ Cartridge.
2. The 20-30% less ink used claim is based on actual ink used when printing color graphics and test printouts obtained by continuous printing in accordance with ISO/IEC 24711. Actual results may vary depending on number of pages actually printed per month and content of pages printed. Eco Mode is used 20% less ink by reducing the density of ink printed on paper, resulting in a slightly less vibrant image.
